BERLIN, Jan. 17.—German officials here today say:
The German war office statement today says:
The French yesterday attacked near
Ruy-Au-Bac and between the Meuse
and the Moselle; near Stacey, which is
about 10 miles from Metz, where the
front line is now, and near St. Eulge, which
is southeast of Malency; on the front
between Malency and Marcheville, and
between Hainault and Metz. Everywhere
where the French were repulsed.
The French are reported to have
thrown 15 bombs upon the German
foundry at Bruge, according to their
own announcement. In doing this
they caused considerable damage to
Bruge itself without doing any damage
to the French.
German troops have thrown
quantities of bombs into Popenheim.

SUPPLY AND MACHINERY DEALERS ARE GATHERING

More Than 500 Will Be Present
When Convention Is
Opened Wednesday

More than five hundred prominent business men, representing practically every city in the southeast, are gathering in Atlanta Tuesday for the fifth annual convention of the Southern Supply and Machinery Dealers' association. The convention opens Wednesday morning and continues through Friday, with an elaborate program of business sessions and social functions.

The organization chose Atlanta as a meeting place as the result of an invitation from the Atlanta convention bureau, backed up by the invitations from Governor Slaton, Mayor Woodward and the chamber of commerce. It is one of the most important business gatherings of the year.

The president of the association, John A. Harvin, of Houston, Tex., the vice president, J. G. Holding, of Augusta, Ga., the secretary and treasurer, Alvin M. Smith, of Richmond, Va., and other officials arrived in the city Tuesday. The convention will open with an executive session Tuesday morning in the Piedmont hotel from 10 a. m. to 1 p. m., and will be followed by an open session from 1 p. m. to 5 p. m. in the same hotel, to which all manufacturers are invited. Thursday there will be an executive session in the morning and another open session in the afternoon. Friday from 10 a. m. to 3 p. m. the association will go into executive session for the election of officers.

The local business arrangements are the hands of a committee headed by J. J. Dinwiddie, and W. M. McDonald, J. R. Whitman and George W. Winship. The registration committee is composed of V. A. Moore, J. B. Fitch and Fred Houser.

The entertainment and social features of the gathering will be the hands of

Henry P. Nelson, chairman; Jack H. Lewis, Rix Stafford, Charles P. King, Joseph T. Rose, J. J. Dinwiddie and W. M. McDonald.

SHOW FOR THE LADIES

Wednesday the visiting ladies will be entertained at a matinee at the Foxworth. On Wednesday evening at 8 p. m. there will be a smoker and reception in the main dining room in the Piedmont hotel. Thursday afternoon at 3 p. m. there will be a tea for the ladies at the Piedmont. A driving club, preceded by an automobile tour to the principal points of interest around the city, will leave the city at 10 a. m. on Thursday. On Thursday evening at 8 p. m. there will be a dance at the Capital City club and will be limited to the joy of the links at the Druid Hills Golf club.

In addition to the entertainment committee, a ladies' committee composed of the following is assisting in the social features of the gathering: Mrs. Charles P. King, chairman; Madeline W. McDonald, J. J. Dinwiddie, S. C. Dinkins, J. Russell Porter, Rix Stafford, W. M. McDonald, J. B. Fitch, E. D. West, V. A. Moore, H. P. Nelson, J. H. Lewis.

The two opening sessions of the convention at 1 p. m. Wednesday, and 10 a. m. Thursday at the Piedmont will be attended not only by the members of the association but by leading manufacturers in and around Atlanta, and discussions vital to the extension and development of business in the territory will be discussed. Among the speakers are some of the best known and most successful business executives in the southeast.

An elaborate and beautiful booklet program embossed in green and gold and illustrated with scenes in and around Atlanta, is being handed to visitors as a souvenir.

**GAMBLING IN DARKTOWN
TAKES ON NEW GUISE**

Betting on Automobile Numbers as Machines Whizz by
Now Is Latest Fad

Negro gamblers of Atlanta's Darktown have been so hotly pursued by the police that it is a hard matter for them to get up a regular card game. For a while things looked very blue; nothing to do but work. But necessity is the mother of invention, and the gamblers have found a new game—betting on automobile numbers as the machines whizz past.

Immediately the fad spread. Craps, dominoes, paraphernalia, were relegated, and the new game—even money on the next automobile number being odd (or even—as you choose)—came into being.

That's the tale Hest Taylor told Recorder Johnson Monday afternoon when he was arraigned for loitering. He was given a fine and warned against betting.

**HUGH ROWE, OF ATHENS,
ON UNIVERSITY BOARD**

Governor Slaton on Monday appointed Hugh Rowe, editor of the Athens Banner, to succeed the late Captain James White, of Athens, on the board of trustees of the University of Georgia. Mr. Rowe is one of the leading citizens of Athens and has been twice mayor of that city.

The law requires that two of the university trustees shall be residents of Athens. Harry Hodgson is the other member of the board residing in that city.

**THICK, GLOSSY HAIR
FREE FROM DANDRUFF**

Girls! Try it! Your hair gets soft, fluffy and luxuriant at once.

If you care for heavy hair, that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderuff.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scourge robs the hair of its luster, its strength and its very life. It is not preventable unless you use Danderuff and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy, or too greasy, get a 15-cent bottle of Danderuff. It is the only remedy for dandruff that is sold at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made. We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair, get Danderuff. WARREN TAKES STAND TO PLEAD HIS INNOCENCE

Dramatic Statement is Made
by Merchant Accused of
Having Fired Store

"You may convict me, gentlemen, you may send me to prison, but if you do, you will condemn an innocent man as there is in this court room."

With these words, raising his hands above him, R. J. Warren pleaded Tuesday with the jury which for three days has heard evidence for and against the merchant, who accuses him of plotting to fire his store on Peters street on the night of November 21 for the insurance money.

At 12:30 o'clock Tuesday afternoon Warren took the stand in his own behalf, speaking for an hour and a half without a single interruption. The court room was crowded, the doors were locked; but not a single movement disturbed his speech.

He reviewed in detail his business operations for the past year, spoke of his insurance policies at length, and declared that he was absolutely innocent of the fire which raged through the store, which he had been in the store since the evening. Warren accused the negro, William Barge—who is said to have made a confession implicating both brothers in an arson plot of having been under suspicion for some time. He said he knew the negro frequently since the drivers and small tools, but the man was such a good worker, he kept him in his employ. Then, he said, he received a letter from R. J. Brown, warning him that Barge was stealing furniture and trying to sell it; and later, he declared, Barge began to drink heavily. He said he warned the negro to "cut out the booze," he said, and the Friday before the fire Barge had returned to him implicitly. On the very afternoon of the fire, he said, he was discussing Barge's habits with E. M. Martin, a private detective, in the store, when flames darted through the ceiling and Barge came running down crying that the store was on fire. Warren said he sent the negro back upstairs to put out the fire, and that he came running down a second time with his clothing ablaze.

Warren related how he was arrested, and described luridly his cell, his iron cot, his bedside lights and his nervousness.

"Nervous," he said, "of course I was nervous. With my store gone, myself under arrest, I could not sleep. My food was bad; detectives were accusing me and firing questions at me. I was a wreck. I called up my wife before I was taken to jail and told her I was arrested. The gentleman of the jury, my wife's lawyer, the sweetest little woman that ever stepped on Georgia soil."

At 2 o'clock when Warren concluded his statement, Judge Hill adjourned the case until Wednesday morning, when all the arguments will begin. The case should go to the jury by noon Wednesday.

With the testimony Tuesday morning of F. Davis, a city detective, who reported Barge's close the evidence for the state.

According to the detective, William Barge, the negro who, the Warrens declared, fired their store, and S. D. Warren were closeted with the detective at police barracks immediately after the fire and Barge was in the presence of Warren, that the Warrens had gone to burn the store. The detective said that Warren was nervous and ill at ease and neither affirmed nor denied the negro's accusation.

William Schley Howard, attorney for the Warrens, asked Davis if he did not go to J. B. Warren's house and tell him Warren that the only chance to save Warren from hanging was for him to tell all about the affair. Davis denied this and also denied that he had threatened Warren, while in the detective's office, with hanging.

"Was there not a bottle of whiskey in the room at the time, and did you not tell Warren that you'd give him a drink of that and then he'd loosen up?" Mr. Howard asked. Davis said he had not.

On cross-examination, Solicitor General asked Officer Milan why he had withheld until now the statement he just then made.

"Did you have it in for the Warrens?" asked the solicitor.

"No," said Milan.

When written statements from Barge were being taken down, statements which said the Warren brothers had made him arrange to fire their store, who did not say ask Barge about the conversation he had with you as to bringing out what he said in writing," asked the solicitor.

"The detective got Barge's written statements. I didn't have anything to do with it," answered Milan.

"Why didn't you tell at the commitment trial in the municipal court what you are telling now?" asked the solicitor.

"Nobody asked me," said Milan.

"Why did you arrest Warren if you thought he was innocent?" Milan said he was present at the fire when the explosion occurred, and arrested Warren upon the suggestion of Fire Chief Cummings, who wanted the proprietors of the store held until an investigation could be made.

Call Officer L. B. Milan, subpoenaed by the state, was put on the stand as the first witness for the defense, and sprang somewhat of a sensation when he said the negro Barge had told him immediately after the fire that he had burnt the store without the Warren brothers knowing anything of the matter.

"Barge said he had been working at the store for a long time and had, instead of working there, and that they, the Warren brothers, hadn't treated him right, and that he thought he'd just burn 'em out and be done with it, especially as he heard them talking about debts and insurance," said Officer Milan.

"UNCLE JOHN" FOSTER, AGED NEGRO, IS DEAD

"Uncle John" Foster is dead. He died at 2 o'clock Tuesday morning at his home on Emmet street and he will be buried at Macedonia church Wednesday. He was one of the last of the antebellum negroes and among the best known darkies in Atlanta.

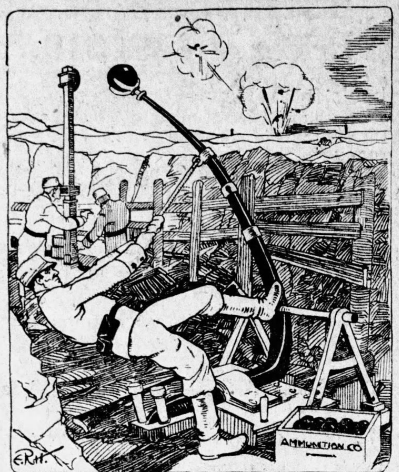

"Uncle John" was once the slave of Thomas Foster, grandfather of Mrs. R. S. Pickett, and he has lived in Atlanta since before the war. His family had employed him at odd times, and he counted himself the friend of some of the most prominent citizens in Atlanta.

Hands Across the Sea!

WASHINGTON, April 12.—President Wilson today received the following cablegram from King Albert, of Belgium:

"I thank you heartily for the greeting of friendship you sent me on the occasion of my birthday."

THE CATAPULT, hurling missiles by means of a spring much on the order of a boy's slingshot, is a modern weapon of war. The device was the artillery of the ancients and was used with effect even up to the middle ages. The French had that in their trench work the catapult of the kind in this picture beats field artillery. When this picture was taken German trenches were only thirty yards distant and the machine hurled hand grenades and small bombs down upon the foe.

MONEY IS CHEAP AND PLENTIFUL IN LONDON

Interest Felt in Effect Conditions
Will Have on British
Control of Financing

LONDON, April 12.—(Correspondence of the Associated Press).—Money remains cheap and plentiful. The government accordingly intends to maintain this condition, even at the risk of seeing New York scoup up, as a result of the strict regulations imposed, some of the outside financing heretofore done through London.

Government control over capital issues, unknown to most of the public, is of long standing and is intended to conserve the private supply, by reaching under this scheme ordinary financing must pass a kind of censorship. Private capital may not be furnished for British enterprises unless it can be shown to the satisfaction of the treasury that they are "advantageous to the national interest."

In the British empire over seas the "special circumstances and urgent necessity" outside the empire, the treasury reserving the power to authorize issues of capital.

There is some difference of opinion among financial men what the future effect of these artificial barriers will be on British control of world financing. It is pointed out, however, that British shipping and trade are the foundation on which this supremacy rests, to which must be added the influence of fiscal habit. Inasmuch as England's habit of shipping is secure at eye and her commerce and industry have not been organically injured as yet, it is felt the world habit of clearing everything through London will persist. Nevertheless, the war has compelled a transfer to New York of a fraction of the financial business heretofore done in London.

Owing to the regulations imposed by the government the effect of issue of war loans cannot be properly measured. The ease with which the last loan of \$1,750,000,000 was floated gave some indication of the financial resources of this country.

The effect of the war on permanent interest rates is a subject of much speculation.

When written statements from Barge were being taken down, statements which said the Warren brothers had made him arrange to fire their store, who did not say ask Barge about the conversation he had with you as to bringing out what he said in writing," asked the solicitor.

"The detective got Barge's written statements. I didn't have anything to do with it," answered Milan.

MAYOR HALTS PURCHASE OF BRICK FOR PRYOR ST.

Second Ward Delegation
Council Hopes to Over-
ride His Veto

Mayor Woodward, who leaves Tuesday afternoon for a trip to Toronto and other places with a committee from the Southeastern Fair association, vetoed during the morning the resolution to purchase brick for the paving of South Pryor street from the Southern Brick Manufacturing company.

The action revives the long-drawn-out row over the South Pryor street boulevard, Alderman Kelley and the other members of the Second ward delegation say that they can and will override the mayor's veto.

The executive's friends in council claim that they have eight certain votes against the resolution enough to sustain the veto.

In his veto message the mayor declared that he considered the resolution a direct violation of the ordinance creating the office of purchasing agent.

He defends the action of the purchasing committee in turning down all bids for brick, and says that concrete could be laid on the street at 11.50 cents a square yard against \$1.15 for brick.

The mayor says that he recognizes the inconsequence to which the people of South Pryor street have been put because the street has an long been torn up, but asserts that the city government is no wise responsible as the general council at one time passed a resolution authorizing the removal of Belgian blocks. He again asserts that the tearing up of the Belgian blocks, which was done at the order of Alderman Kelley, deserves the serious consideration of council.

He cites at length instances of excellent results from concrete pavement, and urges council to make a thorough investigation of concrete pavement. He says it would be a splendid investment if council could go to Athens and in-

THREE DAYLIGHT BURGLARS LANDED IN STATION HOUSE

Negroes Are Caught While
Looting Residence of For-
rest Avenue

Three negroes were caught in the act of burglarizing a house during daylight on Forrest avenue Tuesday morning.

They went in while the occupants were all out. Neighbors saw them and called the police. All Officers Watson and Harfield made the trip in lightning time on light motorcycles and had the negroes covered before they knew they were seen. They had selected from the contents of the house a shotgun, a pistol, a suit of clothes and some small change.

At police station they gave their names as Robert Hall, Russell Wilson and Tom Brown.

In three other negroes arrested Tuesday morning the police believe they have a gang upon whom they can fasten at least seven different burglaries. Their names are Will Hill, Howard Reed and Allen Hill. They were arrested by Officers Kire, and Gorman and Detectives Jameson and Doyle.

The detective says the woman has been acting as the fence in disposing of the goods stolen by the two negro men.

Sues for Divorce

Mrs. Annie Berry Chappell on Tuesday filed suit for divorce against Grover C. Chappell. Mrs. Chappell alleged cruel treatment and also charged that her husband on one occasion had attempted to kidnap her child. On her petition, Judge Ellis, of the superior court, granted an injunction restraining the husband from interfering with her family.

Investigate the concrete pavement there.

Concluding his message, the mayor says that he is satisfied that the courts would rule, if the matter is submitted to them, that his resolution is illegal.

if You See Him Call
"Grady"

Has anyone seen a man walking around Atlanta so tall he scrapes the doorways, yet so thin he wears his clothes loose around? If you have, notify the Grady hospital; they'd like to know.

The Grady has received a letter from Newark, N. J., from the man's wife, who has lost him. She says his name is A. P. Bentz and that he is a Cuban. He weighs, according to the letter, but 140 pounds and is seven feet and a half tall. The doctors at the Grady figure that his proportions must make him a walking skeleton. They declare there are no beds at the hospital to fit such a man.

JITNEY BUS MEN TO TEST NEW CITY LAW

Cannot Operate Under Present City Ordinance, Says Club Secretary

Two Pearse, secretary of the Atlanta jitney bus club, said Tuesday that the city ordinance controlling them, and that Thomas B. Pearse, attorney for the club, was preparing an injunction against the city, to be filed as soon as possible, to hold up the operation of the ordinance until its legality can be tested by the courts.

The ordinance requires each jitney bus to pay to the expense of \$400 per year. If they were placed upon the same as a tax of 2 per cent of the gross receipts, the Georgia Railroad and Power company operates under, each bus owner would pay only \$43.80 per year instead of \$400, said Mr. Pearse. Tuesday, the ordinance was read to the members of each watch as they went to duty, and Chief Beavers ordered enforcement within the next twenty-four hours.

WASHINGTON, April 13.—Through the use of powerful automobile wireless sets, the signal corps is planning to establish a complete line of communication by radio along the entire Texas border and across Arizona and New Mexico to California so that the military commanders from headquarters on the west coast and at San Antonio, on the east, can dispose of their troops rapidly and to the best advantage to preserve neutrality between the Mexican border.

One of these automobile outfits has been built here and thoroughly tested at Fort Monmouth, Tex., and has a sending radius of about 250 miles. Germany, Ignorant of Soul of France, Now Pays Penalty, He Says

(By Associated Press.)

GERMANY, France, April 13.—"Germany, ignorant of the soul of France, now is being punished for her mistake," was the declaration made by Premier Viviani at the opening yesterday of the departmental council of Creuse. "She thought to find," he continued, "a divided, frivolous nation but she met in an iron wall against whose resistance the flower of her army was broken. Then behind the iron wall moved, sudden and unbreakable toward the western front, crushing little by little the army whose chief officers were not prepared for so long and bitter a struggle."

"The French nation, misunderstood and despised, has arisen ready to pay sacrifice on sacrifice with millions in arms preparing for Germany's chastisement. We are certain of victory—the victory of justice. We want Europe free, Belgium liberated, our lost provinces restored; Prussian militarism crushed, since the peace of the world is irreconcilable with its sanguinary whims. We shall accomplish this task with our allies. We shall write not only in the history of France, but in the annals of humanity a page which our sons will read with emotion and pride."

TRANSPORT ASKED FOR AMERICANS AT TAMPICO

WASHINGTON, April 13.—Secretary Bryan today asked the war department to furnish an army transport for Americans at Tampico who wish to return to the United States. Three hundred Americans have filed requests for transportation, but officials believe the number will be increased when the army transport, with a capacity of 1,000, arrives at the Mexican port. Threatened famine, continuous fighting in the outskirts of the city, and lack of work have caused an exodus of foreigners from Tampico.

CARRANZA BUYS BUNCH OF RIFLE CARTRIDGES

New Orleans Gets Order for 27,000,000 Rounds for Small Arms

(By Associated Press.)

NEW ORLEANS, April 13.—Carranza agents placed orders for 27,000,000 rounds of small arms ammunition here, according to a dispatch from Carranza's local constitutional officials. It was said the contracts call for 27,000,000 rifle cartridges and 10,000,000 rounds for machine guns, delivery to begin June 15.

Announcement that such a large order had been placed occasioned surprise here as it was understood that constitutional agents only recently had been informed by manufacturers that it would be impossible to book large orders for delivery before September 1.

**Baby's Happiness
Depends On Health**

Cross, fretful babies usually need a laxative to make them comfortable, and comfort begets happiness. Continuation is the cause of much discomfort. Mothers should watch closely the action of their child's bowels and see that they are regular.

A mild, pleasant tasting laxative, such as Dr. Caldwell's Syrup Pepsin, is ideal for children because of the natural composition and gentle action, and because it contains no opiate, narcotic or other harmful habit-forming drug. Dr. Caldwell's Syrup Pepsin is sold by druggists everywhere. A teaspoonful at bedtime will bring easy, certain relief.

A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 412 Washington St., Monticello, Ill.

**SAGE TEA DARKENS
HAIR TO ANY SHADE**

Don't stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. It is used to keep her hair beautifully dark, glossy and abundant. Thenceforward, her hair fell out or took on faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by adding at any drug store for a 50-cent bottle of "W. F. Hayes' Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By rubbing the gray hair disappear, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.—(Adv.)

MAKE LIFE WORTH LIVING

"Oh, for the 'pep' I used to have. Well, you can get it. Trouble is, you haven't been taking care of yourself. Overwork, worry, too much eating, too little sleep, will surely get in their deadly work on even a young man or woman. Your heart's all right, your stomach's all right, but still you don't feel 'bright'—it's your kidneys and your bladder. The kidneys are not throwing off the poisons which daily accumulate in your blood. The urinary tract is diseased and the bladder is causing pain and inconvenience. Begin today by taking GOLD MEDAL HARLEIN OIL Capsules. In 24 hours you will feel the 'pep' and the 'glitter' of these capsules dissolve quickly in the stomach. The antiseptic, filtering oil filters the kidney's quickly, and gently floods the entire urinary tract, washing out the poisonous microbes which are eating out your vitality. Normal, healthy action then returns. The old-time vigorous, springy step comes back. You feel the pure, old-fashioned HARLEIN OIL. No habit-producing drugs are in it. It's 100% pure. It's the only kind of medicine that's been used for 50 years. All over the world, GOLD MEDAL HARLEIN OIL, the National Standard of Health, is the medicine mankind values. Go to your druggist today and get a bottle of HARLEIN OIL. For the name GOLD MEDAL, on each box. Waiter! One Order of Reindeer Sirloin; And Hurry It Along

WASHINGTON, April 12.—Reindeer meat may soon make its appearance on the American table as a delicacy of sorts now being made by the department of interior through the bureau of education to introduce reindeer meat into the continental United States. It is said to possess a flavor as fine almost as that of venison.

Heretofore virtually the entire supply of reindeer meat was needed for home consumption, but recently there has been a surplus, which the government officials have decided to open up this industry for the Eskimo natives.

The most already has appeared on the menu in dining cars of transcontinental railroads and is said to have met with instant favor.

At present there are sixty-five heads of reindeer in Alaska, aggregating \$7,512, an increase of 22 per cent in the last year. From the sale of meat and hides, 940 native owners last year received an income of \$7,254.

The parade at 11 this morning with the military bands and the military of the university was spectacular. Noon in Colonial times addresses of welcome were made. A great torchlight procession will take place tonight.

The convention was called to order by Commander George B. Davis, Athens. The invocation was by Governor E. W. Jones. Addresses of welcome were delivered by Mayor W. F. Dorsey, M. G. Michael, Chancellor David Barrow, J. J. Tribble, responses by Hon. Consul Dr. P. L. Rosenthal, Columbus; Sovereign Adviser E. E. Omaha, Neb.; Sovereign Sentry, C. B. LEPROSY IS CURABLE, SAYS NOTED SURGEON

Also Keeps Leprous Servants
to Prove It Is Not Easily
Contracted

SAN FRANCISCO, April 13.—"Leprosy is curable and there is little danger of contracting the disease, as I have shown by having none but leprosy servants in my house for years."

This statement was made today by Dr. Adolph H. Boehmer, who has arrived here from Siam. For five years Dr. Boehmer was surgeon general of that country, and private physician to the late King Chulalongkorn. He has studied leprosy exclusively for several years.

All the house boys I had during many years in Siam were afflicted with leprosy and I cured them all, except those who had the disease in too advanced form when they came to me," Dr. Boehmer said.

Dr. Boehmer intends to go to Cuba to study tropical diseases.

AMERICAN FASHIONS

BY LILLIAN E. YOUNG

The newest and smartest shade of blue is designated "blue wild" or "blue blue," and really is remarkably pleasing. It rather borders on a violet tone, but is not so dark and probably resembles the blue of gentians as nearly as any other known shade.

This will be a modish spring color and is particularly good in taffetas, of which the illustrated dress is fashioned.

It will be necessary to have a white China silk waist lining, sleeveless of course, and just serving as a foundation to which the skirt and little shirred neck yoke may be attached. The shirred yoke is merely added above the neckline of the lining and shows into the wide V of overbust.

The top of the skirt is evenly gathered all around, and an added section above is shirred and corded in three or four more rows. The lower part of the skirt is trimmed with two bands of self material, the first a little narrower than the second, and both slightly frilled under a finishing cord. The lower edge of these bands is cut in little square tabs to correspond with the lower edge of the blouse.

In front of the short unconfined edge of the blouse runs up at the center. The sides and back are held in a little about four inches above the waist under a cord. The long elegant lines of the enclosing bands of self material all added to form square tabs.

Over either side and below the center of the V neck a bit of dull silver embroidery is introduced, taking the form of long narrow points that are extremely attractive as a trimming.

COLUMBUS THROUGED FOR BIG CELEBRATION

Governor John M. Slaton Will Welcome Visitors Wednesday at Noon

COLUMBUS, Ga., April 12.—With the arrival of Congressman Adamson this morning, interest in the Home-Coming week celebration will be at its high tide and when the celebration formally begins tomorrow the visitors to Georgia, and Columbus in particular, will be in the city from many sections of the land, who will have gathered to have a part in the celebration of the fiftieth anniversary of the last battle of the Civil war, which was fought in this city.

Judge Adamson will be among the guests at the opening ball tonight at the Hotel Raleigh, which is given not only as the big opening feature of Home-Coming week, but to "christen" the big \$200,000 skyscraper just about completed on Twelfth street, which marks a great and successful undertaking on the part of the chamber of commerce, which organization is backing the home-coming celebration.

While quite a number of events have been in progress today and yesterday, including the Dixie Picnic shows and the presentation of moving pictures of Columbus scenes dating back to the sixties, the real celebration begins tomorrow on the arrival of the governor and others of prominence and the exercises of the big opening feature of Home-Coming week, to be held on the large lawn in front of the Museum country court house. In addition to the address of welcome from the governor, on the part of the state, President Davis, of the chamber of commerce, and Mayor Cook will welcome the visitors on part of the city and the commercial body, and Congressman Adamson will respond in a happy address.

There are numerous big features in addition to the public exercises tomorrow and the indications are that it will be the greatest day of the entire week.

LITTLE STORIES FOR BED TIME

By Thomas W. Burgess

Here's what Mr. Toad says.

Head it well, my dear.

"Time to watch for clouds is

"When the sky is clear."

He says that is the reason that he lives a good old age, does Old Mr. Toad.

I suppose he means that when the sky is cloudy everybody is looking for rain and is prepared for it, but when the sun is shining most people forget that there is such a thing as a storm, so when it comes suddenly very few are prepared for it. It is the same way with danger and trouble. So Old Mr. Toad very wisely watches out when there seems to be the least need of it, and he finds it always pays.

It was a beautiful spring evening. Over back of the Purple Hills to which Old Mother West Wind had taken her children, the Merry Little fiddlers, and behind which Jolly, roving, red Mr. Sun had gone to bed, there was still a faint clear light. But over the Green Meadows and the Smiling Pool the shadows had drawn a curtain of soft dusk, which in the distance became black. The little stars looked down from the sky and twinkled, just to see their reflections twinkle back at them from the Smiling Pool. And there and all around it was perfect peace and beauty. Mr. Toad swam back and forth, making little silver lines over the surface of the Smiling Pool, and reaching contentedly for it was the hour which he loves best. Little Mr. Toad had been under his head under his wing and gone to sleep among the alders along the Laughing Brook. The following day the Blackbird had done the same thing and the he had been under his wing and gone to sleep among the alders along the Laughing Brook.

But this did not mean that the glad spring was silent. Oh, my no! No, indeed! The Green Meadows were awake and the Green Forest was silent, but as if to make up for this the sweet singers of the Smiling Pool, the lily and the frogs and Old Mr. Toad were pouring out their gladness as if they had not been singing most of the departed day. You see, it was the hour they love best of all the hour which seems to them just made for singing, and they were doing their best, to tell Old Mother Nature how they love her and how glad they were that she had brought back the sweet Mistress Spring to wake them from their long sleep.

It was so peaceful and beautiful there that it didn't seem possible that danger of any kind could be lurking near. But Old Mr. Toad swelling out that outer music bag in his throat and singing with all his might, never once forgot that was saying of his, and so he was the first to see what looked like nothing so much as a little detached bit of the blackness of the Green Forest floating out toward the Smiling Pool. Instantly he stopped singing. Now that was a signal. When he stopped singing his nearest neighbor stopped singing, and the next one and the next, and in a minute

The West End study club will meet Wednesday morning at 10:30 o'clock with Mrs. E. G. Porter, 25 Gordie street. The paper for the morning will be read by Mrs. H. L. Culbertson.

There wasn't a sound from the burrows. That great crowd stopped as abruptly as the electric lights go out when you press a button.

Back and forth over the Smiling Pool this way and that way, floated the shadow, but there was no sign of any living thing in the Smiling Pool. After awhile the shadow floated away over the Green Meadows without a sound.

"Hoity the Owl didn't get one of that time," said Mr. Toad to his nearest neighbor with a chuckle of satisfaction. Then he swelled out his music bag and began to sing again. And at once, as abruptly as it had stopped, the great chorus began again, as joyous as before, for nothing had happened but for the watchfulness of Old Mr. Toad.

Southern League Season Opens Today; Crackers Meet Gulls in Mobile

Crackers Open Season Today With the Gulls

Manager Smith and Thirteen Players Left for Gulfport Monday Afternoon—Hiett and Rumber Form Battery for Opener

BY IRVING BROWN.
Four miles of the Southern league circuit get their first glimpse at league ball beginning the fifteenth season of the circuit this afternoon. They are Mobile, New Orleans, Nashville and Memphis. Billy Smith's Crackers meet the Mobile Gulls at the Barons, headed by Captain McEwen, tackle the Pelicans at Gulfport, while the Pelicans and the Mobile Gulls take action at the Vols, and Bob Allen's Little Rock Travelers begin up with the Chicks in Bluffton.

Manager Smith loaded thirteen of his force on board a rattler late Monday afternoon and pulled out for Mobile. They arrive there today, and look up with the Gulls in a single game this afternoon. Following this contest the team return here to open tomorrow with Dobbs' team at Ponchartraine, where they held forth for four games. The Crackers are making the trip to Mobile because Hamler and Jenkins, Pitcher and Browning, Allen and Hiett, infielders Eibel, Pickett, Tuller and Waldron, Outfielders Moran, Bowden and Manning.

Manager Smith announced last evening that he had decided on "Landy" Hiett as his pitching champion for this first game, and the probabilities are that Hamler will be sent in to do the catching. Bradley, Hiett, Pickett, Tuller and Manning are the best of the best right-hander in the league. The ex-Texas leaguer has shown himself as a star in the games he has worked during the last season. He is a right-hander, but has shown a tendency to start left-handed. He has been a hard man to get on, and has come to reach. If he gets off to a good start today, he and Hiett should put up a great pitcher's battle.

The rest of the club left before they enjoy a day of rest. But little if any work will be done. Williams has practically been chosen to start the opener against New Orleans here Wednesday. Dick Johnson, who will start the game today between the Gulls and Crackers, will not be allowed to attend his marriage. Jim Lynch has been told that he will run a detail of the contest in the "case" at the corner of Broad and Washington streets. Fans will therefore have an opportunity of hearing the contest play by play, even though the boys operate on the road.

The league will carry only six umpires on its staff this year, which means that half of the circuit will be run by men who will work. President H. B. Hays announced Monday night that the following assignments had been given to the umpires: Kerin and Roderbaum in Nashville, Chester and Hays in New Orleans, Fleming in Memphis and Brannen in Mobile.

The story of the entries for first honors in point of attendance at the Mobile games gets a little more interesting. New Orleans is after the trophy this year, and indications are that Pelicans fans are going to turn out in large numbers. The civic and commercial clubs of the city have been making a campaign to interest fans in the contest, and the management has even been successful in interesting a number of women in the move. These have been many for several years past, and it is the opening game today.

Three things are threatened against Atlanta in the contest and it is up to the fans to turn out en masse for the game. The Pelicans are going to turn out in large numbers. The civic and commercial clubs of the city have been making a campaign to interest fans in the contest, and the management has even been successful in interesting a number of women in the move. These have been many for several years past, and it is the opening game today.

Local fans know that Atlanta is the best sport city in the south, and all that is needed to get out a record attendance at this opening game is to sound the call. It is up to the local voters to beat the Birmingham contingent out, for if the flagmen record should happen to win this trophy, the last will never be heard.

Manager Smith will use in the game against the Gulls today the same line-up that has been working in exhibition games for the past two days or two weeks. As stated above Hiett and Rumber will be the battery.

Here's how they will look when they take the field:

MOBILE.
Bowden, 1st.....Powell, 1st.
Eibel, 2nd.....Miller, 2nd.
Moran, 3rd.....Northern, 3rd.
Pickett, 4th.....Berry, 4th.
Tuller, 5th.....Dobard, 5th.
Fleming, 6th.....Baumgardner, 6th.
Rumber, 7th.....Schmidt, 7th.
Hiett, 8th.....Hors, 8th.

Piedmont Beats Clayton
(Piedmont, Ga., April 12.—Piedmont college won a hotly-contested game Saturday afternoon, the score standing 7 to 3. The game was fast and snappy and was finished in 7 hours and 6 minutes. Robinson, pitcher for Piedmont, was the star of the situation at all times, and the visitors were never able to reach him consistently.)

An Alameda, Cal. girl wooed by a poet and a soldier, slipped away and married a cotton broker, it was announced in a story which showed a lot of sense.

Cochran Guy, pitcher of the Yale crew, says gun growing in ill-fortunes. That was his fifth, the last excuse for chewing gum.

Mercer Downs Miss Aggies

MACON, Ga., April 12.—Mercer defeated the Mississippi Aggies here Monday afternoon in a game that was slow and rather devoid of spectacular features, the score being 5 to 4. Hunt opposed Roberts on the mound, and the two battled on even terms until the eighth, when the latter gave way to Shaw, with the score tied. Shaw whiffed the first two batters to face him in the ninth, and then hit Swann with a pitched ball. The latter stole second and scored on a single by Hawes.

Dewberry, at third for Mercer, put up the best exhibition of the afternoon. He had one error in five chances, but all of the five were hard and this hobbled was excusable. In addition to his nice fielding, Dewberry had three hits in four trips to the plate. The Aggies ran wild on the bases owing to an injury to Clements, the Mercer catcher's thumb sustained in a game here last week.

The two teams meet again this afternoon, and Swann and Roberts are expected to be the battery for the Aggies, while Stearns will work with Clements for Mercer. The Aggies leave here tonight for Atlanta, where they play two games with Tech on Wednesday and Thursday.

And that seems a million years ago in a time we know not when. And here today, in the same old way. We toil in the bush again; Our eyes are bright and our chests are thick. Our hair is sable as a raven's. Our years are few—our life is new—Our souls untired—and yet—
